## Sneaker Keepers

Made from 1/2" phenolic and vinyl, this shoe organizer is the perfect solution for narrow spaces. While the phenolic cubbies offer superior impact, water and stain resistance, the vinyl bench provides convenient seating while in usage. We can manufacture custom sizes and shapes for any application. Please call 404.363.1665 or email [orders@claytonfixture.com](mailto:orders@claytonfixture.com) for costs and lead times.

This unit is widely used in schools, swimming pool, sauna, school, swimming pool, shopping malls and other places, which is the best choice of modern leisure life because of its various styles and durability.

Custom cushions made with durable vinyls are easy to keep clean, perfect for booths in your restaurant or in your playground areas.
